Education

Eskisehir Technical University Eskisehir, Turkey

Bachelor of Science in Computer Engineering | Expected June 2028 | GPA: 3.63 / 4.00

Project Experience

ATAP Entrepreneurship Workshop and Competition Eskisehir, Turkey

Developer May 2026

- Built an AI-powered platform designed to streamline certification processes for businesses, leveraging intelligent automation to reduce manual workload.
- Competed against multiple teams in a three-day entrepreneurship event organized by ETGB and ATAP, presenting a functional prototype and business model to a panel of judges.
- Achieved 3rd place, securing a ₺20,000 prize for innovative use of artificial intelligence in a real-world business application.

The Future of Wallet Hackathon by Tether and Bybit Istanbul, Turkey

AI Developer November 2025

- Developed a non-custodial cryptocurrency wallet integrated with AI agent using the Tether Wallet Development Kit (WDK) to facilitate seamless blockchain interactions.
- Implemented a natural language processing feature, enabling users to execute transactions via voice commands and conversational inputs.
- Achieved 2nd place among 10 competing teams, securing a \$2,000 prize for technical innovation and successful live demonstration.

Stellar Hack Pera Hackathon Istanbul, Turkey

Team Leader / Developer June 2025

- Prototyped a decentralized crowdfunding platform on blockchain technology, enabling transparent capital accumulation and distribution between creators and backers.
- Led team workflows and project milestones, ensuring effective collaboration in a fast-paced hackathon environment.

Leadership & Activities

ESTU Blockchain Club Eskisehir, Turkey

Board Member, DevTeam Lead February 2026 – Present

- Serving on the executive board with responsibility for the development team, overseeing technical projects and coordinating developer contributions within the club.
- Leading the DevTeam in building blockchain-related applications and organizing hands-on workshops to strengthen members' technical skills in Web3 development.

EESTEC LC Eskisehir Eskisehir, Turkey

Active Member September 2024 – Present

- Organized major career events and technical workshops with industry professionals, coordinating logistics and managing resources to maximize student engagement.

Uzatel Robotics Team Balıkesir, Turkey

Team Member April 2022

- Developed a gesture-controlled remote vehicle integrating accelerometer sensors, custom 3D-printed components, and electronic circuits for signal communication between the controller and motor system.

Skills & Interests

- Technical: Python, Java, C++, JavaScript, HTML/CSS, React, Next.js, TypeScript, Tailwind CSS, Node.js, PostgreSQL, Git, Stellar SDK, Tether WDK
- Language: Turkish (Native), English (Advanced, YÖKDİL: 71.25/100)
- Interests: Entrepreneurship, Artificial Intelligence Trends, NBA & Basketball
